

COMPANY PROFILE

www.sunhourdrilling.com

INTRODUCTION

Sunhour Drilling Botswana is a 100% citizen owned company involved in a diverse mix of industries including drilling , earthmoving plant hire etc. Our strength and foundation is based on provision of excellent customer care, good service quality products to the growing demands of the business community. The company's competitive lies in our qualified and experienced team to keep our customers coming back.

OUR MISSION

Embracing the needs of a changing industry by being committed to continuous review and improvement of its operations within a culture of customer focus, quality assurance, information technology, human resource development and environmental responsibility.

OUR VISION

To be recognised as one of the best plant hire company in Botswana with concern for our customers' needs, our management talent, market leadership and operational excellence.

DRILLING DEPTH CAPABILITY

Core Size	Depth Capacity
PQ	50–100m
HQ	200–300m
NQ	Up to 600m

PERFORMANCE FEATURES:

High Penetration Drilling Rate: Optimised hydraulic power delivery supports efficient drilling penetration in hard-rock formations.

Core Orientation Capability: Supports accurate structural geological interpretation and directional analysis.

High-Quality Core Recovery: Double and triple tube core barrel systems assist in maintaining core integrity within fractured and mineralised zones.

Hard-Rock Exploration Capability: Designed for stable drilling performance in demanding geological conditions.

Remote Terrain Mobility: Crawler-mounted configuration enables efficient deployment across remote exploration environments. configuration enables efficient deployment across remote exploration environments.

CORE VALUES

01

Service to the customer has to be too and above anything else

02

Setting goals and rewarding progress yet understanding accountability and commitment

03

Hard work and individual productivity

04

Striving for excellence in reputation

05

Cultivating the best relationship where possible with our co-workers, customers, suppliers and our community.

UNIQUE APPROACH

Sunhour Drilling's primary goal is to satisfy our customers' needs in the most cost effective and efficient manner. Our supervisors are able to assess proposed contracts or sites thoroughly and advise our customers on the most economical and time efficient manner in which to complete the necessary work.

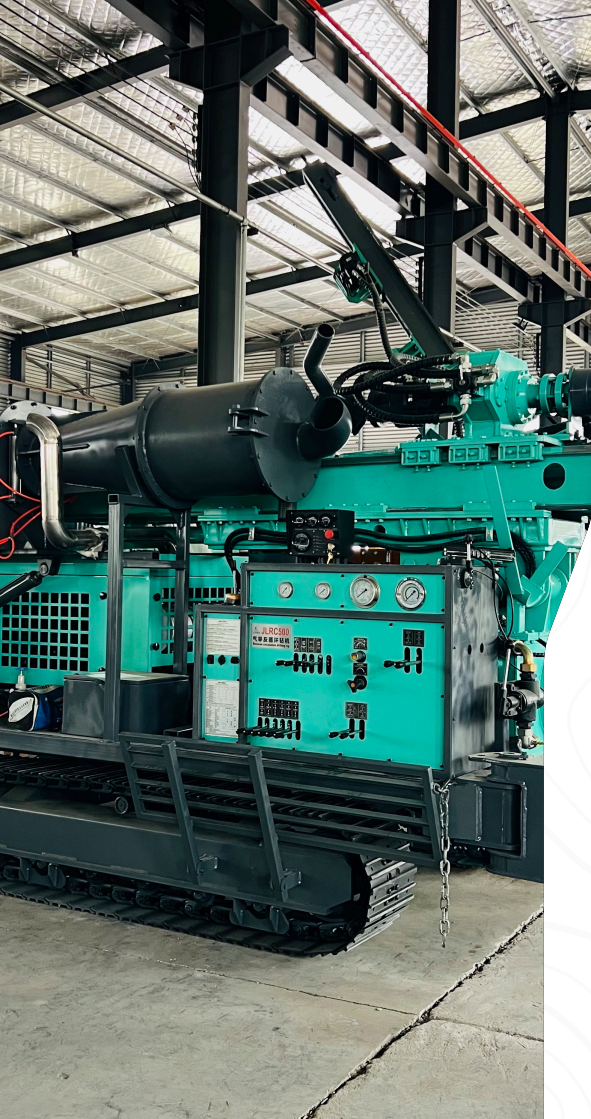

SAFETY & HEALTH

Our key strategic objective is the achievement of "zero harm". Our supervisors and team leaders ensure that safety is not compromised under any circumstances by taking responsibility for employee safety, leading by example and encouraging positive safety behaviour at all times. Our Supervisors apply a policy of zero tolerance to non-compliance with safety standards.

ENVIROMENTAL ISSUES

We also insist that there should be a continual awareness of the environment in all the work the company performs. Whilst appreciating that there will always be some environmental sacrifices in the course of development and progress, Sunhour Drilling ensures at all times that there is as minimal impact on the environment in all our engagements.
